MEDIUM COVER (Not Applicable to 4x4 vehicles)

This cover reduces the excess cover to R10,000.00 and reduces the security deposit to R10,000.00, payable on collection and is applicable to the vehicle and third party property damage, but does not include the cost of replacing or repairing of windscreens and tyres, radio theft and recovery (towing) costs. CLAIMS HANDLING FEE

A handling fee of R500.00 is charged on all damage/accident claims irrespective of the liability cover option taken.

ACCIDENTS

Single vehicle accidents are included in all liability cover options, **except in the case of roll-overs.**

In case of damage to the vehicle rented, the following will apply:

The incident:

All accidents must be reported to the owners within 24 hours and by law, to the Local Police within 24 hours. An accident report number from the police must be obtained at the time of reporting the incident. This proves that the accident has been registered.

Failing to report accidents may void all liability cover and the renter becomes fully liable for all costs.

We advise that you take as many photographs of the accident scene and also obtain the third party detail. We also suggest you take a photograph of the driver's licences of the persons involved.

An accident report which is provided in the RENTAL PACK, must also be completed. These documents and records of evidence will be submitted to the owner in order to process the incident.

THE VEHICLE

The renter is responsible for the recovery of the accident damaged vehicle to the original rental branch.

A replacement vehicle will only be dispatched once payment of all damages / recovery costs to the first vehicle is made.

The owner reserves the right to withhold a replacement vehicle; this does not entitle the client to any claims against the supplier or booking agent. If the renter requires a replacement vehicle to be delivered, charges will be levied according to the one way rates applicable. If the renter is not able to take a replacement vehicle, no refunds for early termination of the contract will be made. Should the renter continue with a replacement vehicle, this vehicle will be noted under the current rental contract and standard cover will be applicable. This includes a new R45,000.00 payment on the nominated credit card. Reduced insurance excess is not available on a replacement vehicle. Should the applicable excess be charged, and should the owner be successful in the reimbursement of that amount by the 3rd party, this amount will be refunded to the renter. AIR-CONDITIONING

The air-conditioning in the driver's cabin of the vehicle, is designed to be used in South African weather conditions. In regions where the temperatures reach in excess of 30 degrees Celsius, or the humidity is higher than 60%, the unit may not work as effectively. This is normal and does not constitute grounds to request a replacement vehicle.

Caution, Operating the vehicles Air Conditioning in the drivers cabin when the vehicle is **stationery**, and or idling for prolonged periods , without sufficient airflow from driving speed, can cause serious damage to the vehicles air conditioning system, the vehicle air-conditioner must be switched off to prevent such damage. (Such damage for customers account)

The air-conditioning in the living area of the motorhomes only works when it is plugged into a 220v power supply. This power supply can be found at the camp sites. The vehicle is supplied with an extension lead, which is plugged into the camp site power box, and then plugged into the motorhome in the blue power socket.

DUST INGRESS

Southern Africa is predominantly an arid desert region and the majority of secondary routes travelled, are on unsealed dust or gravel roads. It is not possible to make vehicles dust-proof and therefore refunds or claims for any dust ingress of any nature, will not be considered.

OIL AND TYRES

Clients will be responsible for the weekly checking of oil, battery, brake and clutch fluids, water, tyre condition and the pressures and all other items which require periodical checking for the proper functioning of the vehicle. Failure to adhere to this rule will result in a penalty & will solely be on the client's account.

PAYMENT

The supplier does not accept Travelers cheques or cheques as payment in any way. The supplier only accepts valid Visa and MasterCard credit cards that are embossed, in order to place the preauthorisation for insurance cover, security deposits and excesses. The holder of the credit cards needs to be present at vehicle collection in order for the transaction to be processed. The supplier is not responsible for any currency fluctuations that may occur in any transactions including the refunding of deposits. The security deposit can be paid on day of collection, but may take a while to process. It is advisable to pay the security deposit in advance in order to save time at handover.

Repairs of up to R 1,000.00 may be affected without prior authorisation from the supplier and such repairs may be reimbursed, on the submission of a claim with original receipts attached. Amounts above R1,000.00 will require verbal/telephonic approval from the suppliers on-road assistance. (Numbers provided in your rental pack).

Should a call-out fee be charged by a supplier to replace a tyre, approval must be obtained from your collection branch. (The renter is responsible for the maintenance costs, repairing of flat, punctured or damaged tyres).

Should permission be granted by the supplier for an overnight stay in a lodge, due to repairs, a maximum allowance of R800 per night per vehicle is granted for a maximum of one night in South Africa and two nights outside of South Africa. TYRES

The renter is responsible for any and all tyre maintenance costs including, repairing of flat, punctured, damaged and or excessively worn tyres.

The driver should not exceed the road traffic ordinance speed limits of 120km/h on tarred roads, and 80km/h on gravel/sealed or corrugated roads.

For your safety, the supplier recommends a speed of not more than 100km/h on tarred roads, and 60km/h on gravel/sealed or corrugated roads, and max 40km/h in National Parks.

Tyres get hot and pressures increase at higher speeds. Tyres are then susceptible to damage especially on uneven surfaces.

When replacing a tyre, please ensure that it is of the same brand, size and ply rating as that of the damaged tyre.

Reconditioned or re-treaded tyres are NOT acceptable.

Drive slowly, especially on gravel and dirt roads. Keep to a maximum 60km/h on gravel and 30km/h on soft sand. Try to stay in the existing tyre tracks.

Should vehicle be returned with excess tyre wear the customer will be liable for the cost of such tyre replacement, fair wear and tear will be taken into account, the final decision of the tyre wear being excessive is the sole decision of the owner. Many factors will increase tyre wear such as , but not limited to, uneven rocky or washboard gravel roads , incorrect tyre pressure for the specific road conditions, reckless or negligent driving, high temperature road surfaces, excessive loading. The customer is responsible to continuously manage the tyres to ensure that tyre wear is not excessive.

IMPORTANT TYRE PRESSURE

It is vital to understand and manage tire pressure according to the road and vehicle load conditions.

Poor tire pressure management is a big cause of serious road accidents on tar and especially secondary gravel roads.

Tire pressure increases as the tire gets to operating road temperature (after \pm 10kms)

Tire pressure increases from a cold tire (not been driven) to tire that has been driven, i.e. a hot tire by between 10 to 15 percent, factors such as road surface, speed, load, heat, etc. effect tire pressure.

Tire pressure gauges at petrol stations cannot be trusted as they vary dramatically and are generally not calibrated correctly, check your tire pressure personally, ask for a tire pressure gauge from our motorhome consultant for your trip.

On gravel

- Where your speeds SHOULD BE much lower and never over 80 kmph (legal limit)
- Deflate your tyres by 10 or 15%, to give a softer ride, one that will not shake the windscreen out of the car or the fillings from your teeth.

To get an accurate datum, make a note of cold pressures before you start, observe recommended tire pressure chart in the motorhome.

For long distance tar, it's advisable to increase by 10% above the norm.

On good gravel decrease by 10% to 15 % AND lower your speed

Keep large following distances on sand/dirt roads to avoid excessive dust which hampers visibility, hampers fresh air filters into cabin, clogs engine air filters resulting in possible increase in fuel consumption.

Ensure you brake timeously for water drifts in the road. These drifts are often dry and seem to appear suddenly and are not always clearly visible. Driving through them at excessive speeds can damage your suspension and more.

TRACKING

All vehicles are fitted with tracking devices. Tracking is monitored in all Southern Africa destinations as allowed by the supplier. The supplier reserves the right to repossess the rental vehicle at any time if it is found illegally parked, driven recklessly and irresponsible driving or being used to violate the law or appears to be abandoned or if the renter is in breach of any terms or conditions of the rental agreement, has entered any restricted area or has infringed on the speed limits. (The owner reserves the right to retain any deposit held in lieu of damages for the above)

TRAFFIC INFRINGEMENTS

The renter is liable for all fines and penalties incurred during the rental period plus an administration fee of R250 for each infringement or penalty notice.

- When both parents are travelling with a child, they need to produce an unabridged birth certificate that shows the names of both parents. In cases where the certificate is in a language other than English, it must be accompanied by a sworn translation issued by a competent authority in the country concerned.
- When a child travels with only one parent, additional documents should include an affidavit in which the absent parent gives consent for the child to travel, a court order granting full parental responsibilities or legal guardianship of the child, or the death certificate of the absent parent. The affidavit should be no more than three months old, from date of travel.

- In the case of a child travelling with a person other than a parent, the unabridged birth certificate must be supplemented by affidavits from the parents or legal guardians confirming that the child may travel with that person, copies of the identity documents or passports of the parents or legal guardian, and the contact details of the parents or legal guardian.
- Similarly, a child travelling as an unaccompanied minor would have to produce the unabridged birth certificate, proof of consent from both parents, or legal guardian and contact details, plus documentation relating to the person receiving the child in the Republic. The latter documentation should include a letter stating the person's contact details and residential address and contact details where the child will be residing, plus a copy of his or her identity document, passport or residence permit.

All documents must either be original or certified as true copies of the original, by a competent authority. Documents not in English must be accompanied by a sworn translation. For more information <http://www.dha.gov.za/files/Brochures/Immigrationleaflet.pdf>
