The renter is responsible for the recovery of the accident damaged vehicle to the original rental branch.

A replacement vehicle will only be dispatched once payment of all damages / recovery costs to the first vehicle is made.

The owner reserves the right to withhold a replacement vehicle; this does not entitle the client to any claims against the supplier or booking agent. If the renter requires a replacement vehicle to be delivered, charges will be levied according to the one way rates applicable. The renter is responsible for any and all tyre maintenance costs including, repairing of flat, punctured, damaged and/or excessively worn tyres.

The driver should not exceed the road traffic ordinance speed limits of 120km/h on tarred roads, and 80km/h on gravel/sealed or corrugated roads.

For your safety, the supplier recommends a speed of not more than 100km/h on tarred roads, and 80km/h on gravel/sealed or corrugated roads, and max 40km/h in National Parks.

When replacing a tyre, please ensure that it is of the same brand, size and ply rating as that of the damaged tyre.

Reconditioned or re-treaded tyres are NOT acceptable.

CAUTION: The 4x4 campers must never be used in 4WD mode on tarred roads as serious damage can occur.

Drive slowly, especially on gravel and dirt roads. Keep to a maximum 80km/h on gravel and 30km/h on soft sand. When driving in jeep tracks try to stay in the existing tyre tracks.

IMPORTANT TYRE PRESSURE

It is vital to understand and manage tyre pressure according to the road and vehicle load conditions.

Poor tyre pressure management is a big cause of serious road accidents on tar and especially secondary gravel roads.

Tyre pressure increases as the tyre gets to operating road temperature (after \pm 10kms)

Tyre pressure increases from a cold tyre (not been driven) to tyre that has been driven, i.e. a hot tyre by between 10 to 15 percent, factors such as road surface, speed, load, heat, etc. affect tyre pressure.

Tyre pressure gauges at petrol stations cannot be trusted as they vary dramatically and are generally not calibrated correctly, check your tyre pressure personally, ask for a tyre pressure gauge from our motorhome consultant for your trip.

Periodically during the day stop while driving, check tyre temperature, this can be done by simply holding your hand against the tyre side wall. If the tyre is too hot for your hand to hold (coffee cup hot) increase tyre pressure and reduce speed.

On gravel

- Where your speeds SHOULD BE much lower and never over 80 kmph (Supplier's limit)
- Deflate your tyres by 10 or 15%, to give a softer ride, one that will not shake the windscreen out of the car or the fillings from your teeth.

To get an accurate datum, make a note of cold pressures before you start, observe recommended tyre pressure chart in the vehicle.

For long distance tar, it's advisable to increase by 10% above the norm.

On good gravel decrease by 10% to 15 % AND lower your speed

CAUTION: always re-inflate tyres when returning to tar roads

Keep large following distances on sand/dirt roads to avoid excessive dust which hampers visibility, clogs up cabin fresh air filters, clogs up engine air filter which may lead to increase in fuel consumption, flying stones may damage windscreens.

Ensure you brake timeously for water drifts in the road. These drifts are often dry and seem to appear suddenly and are not always clearly visible. Driving through them at excessive speeds can damage your suspension and more.

TRACKING

All vehicles are fitted with tracking devices. Tracking is monitored in all Southern Africa destinations as allowed by the supplier. The Supplier reserves the right to repossess the rental vehicle at any time if it is found illegally parked, driven recklessly and irresponsible driving or being used to violate the law or appears to be abandoned or if the renter is in breach of any terms or conditions of the rental agreement, has entered any restricted area or has infringed on the speed limits. (The Supplier reserves the right to retain any deposit held in lieu of damages for the above)

TRAFIC INFRINGEMENTS

The renter is liable for all fines and penalties incurred during the rental period plus an administration fee of R250 for each infringement or penalty notice.

CANCELLATION / NO-SHOW PENALTIES

Cancellations are charged according to the below. Fees in percentage of total rental amount.

30 – 7 days before collection:	50%.

TRAVELLING TO SOUTH AFRICA WITH CHILDREN – NEW VISA REGULATION

Effective 01 June 2015 *New regulations for children travelling to & from South Africa.*

Effective travel date from 01 June 2015, regardless of the time of booking, all minors under 18 years of age travelling to and from the Republic of South Africa, have to present additional documents which were not needed until now. These new regulations apply to all travellers, regardless of their nationality. They were promulgated (set out) in terms of the South African Immigration Amendment Act of 2010 and define children as persons under the age of 18.

It is the responsibility of passengers to ensure their children have the correct documentation or risk being denied boarding. The new law will be enforced by airlines and immigration officials across the board (land, sea and air).

REQUIRED DOCUMENTATION:

- When both parents are travelling with a child, they need to produce an unabridged birth certificate that shows the names of both parents. In cases where the certificate is in a language other than English, it must be accompanied by a sworn translation issued by a competent authority in the country concerned.
- When a child travels with only one parent, additional documents should include an affidavit in which the absent parent gives consent for the child to travel, a court order granting full parental responsibilities or legal guardianship of the child, or the death certificate of the absent parent. The affidavit should be no more than three months old, from date of travel.
- In the case of a child travelling with a person other than a parent, the unabridged birth certificate must be supplemented by affidavits from the parents or legal guardians confirming that the child may travel with that person, copies of the identity documents or passports of the parents or legal guardian, and the contact details of the parents or legal guardian.
- Similarly, a child travelling as an unaccompanied minor would have to produce the unabridged birth certificate, proof of consent from both parents, or legal guardian and contact details, plus documentation relating to the person receiving the child in the Republic. The latter documentation should include a letter stating the

person's contact details and residential address and contact details where the child will be residing, plus a copy of his or her identity document, passport or residence permit.

All documents must either be original or certified as true copies of the original, by a competent authority. Documents not in English must be accompanied by a sworn translation. For more information <http://www.dha.gov.za/files/Brochures/Immigrationleaflet.pdf>
